PROGRESS REPORT ON IO7

Background/problem

Many terms used in educational settings are poorly defined or have different meanings in different countries. This could make data from a pan-European questionnaire unreliable.

Co-funded by the
Erasmus+ Programme
of the European Union

PROGRESS REPORT ON IO7

O-Health-Edu

Primary Aim: To develop a glossary of terms concerning higher education of oral health professionals (OHPs) in Europe

Secondary Aim: To create a resource to improve the accuracy of replies to our questionnaire

Co-funded by the
Erasmus+ Programme
of the European Union

PROGRESS REPORT ON IO7

Kick-off workshop:

1. Agreement that terms used in questionnaire (stage 1) will take priority
2. Glossary will be expanded to include other terms required for questionnaire stage 2 or poorly defined in other contexts for OHP education

PROGRESS REPORT ON IO7

Work Plan:

1. Identify terms that we will use in the first questionnaire (sources *e.g.* Eugene's questionnaire, draft of our questionnaire, brainstorming, GED document)
2. Distribution of a subset of terms to members of the group for definition
3. Collation of terms

Co-funded by the
Erasmus+ Programme
of the European Union

PROGRESS REPORT ON IO7

O-Health-Edu

Barcelona:

1. Around 75 terms currently identified
2. Discussion concerning how we should define terms (use current references or make new definitions?). Issue – publication of novel work vs compilation of others' definitions
3. Discussion of terms within expert group to reach consensus about definitions
4. Identification of new terms to be defined

Co-funded by the
Erasmus+ Programme
of the European Union

PROGRESS REPORT ON IO7

Going forward:

1. Further brainstorming within expert group
2. Stakeholder consultation - Strasbourg
